NQMBC - Quality Initiative Audit

Report: National Quality Measures for Breast Centers
 Audit for 2008, for submission to NCBC for certification

Insight Breast Care Center
 Page 1 of 1: February 1, 2009

I. For Diagnostic Breast Centers

- | | |
|---|---------|
| 1. Imaging Timeliness - Avg # of days from Screening to Diagnostic: | 6 days |
| 2. Mammography Call Back Rate: | 7% |
| 3. Surgical Timeliness - Avg # of days from Diagnostic to Surgical/Excisional Bx: | 16 days |
| 4. Imaging Timeliness - Avg # of days from Diagnostic to Core Bx: | 11 days |
| 5. Surgical Timeliness - Avg # of days from Needle Bx to Surgical Bx: | 5 days |
| 6. Needle / Core Bx Rate: | 40% |
| 7. Path Timeliness - Avg # days from non-open Bx to Path Results: | 2 days |

II. For Clinical Breast Centers

- | | |
|---|--------|
| 8. Avg # days from Open Bx to Path Results: | 2 days |
| 9. Avg # Days from breast cancer surgery to Path Results: | 2 days |
| 10. Path Report Completeness - Tumor Size: | 15% |
| 11. Margin Analysis: | 40% |
| 12. Magins Indentified: | 30% |
| 13. Lymph Node Analysis: | 26% |
| 14. Specimen Sampling Analysis: | 23% |

15. Five Year Stage		2005	2006	2007	2008
Specific Survival Rate:					
	0				98.5%
	I				100%
	II				100%
	III				99.2%
	IV				95.4%
	All				98.9%

- | | |
|---|----------|
| 16a. ER and PR Receptor Measurement for Invasive Disease: | 65% |
| 16b. ER and PR Receptor Measurement for Insitu Disease: | 59% |
| 17. Surgical Care - Sentinal Node Bx: | 36% |
| 18. Patient Satisfaction Survey - Use: | Yes |
| 19. Patient Satisfaction - Survey Development: | In-house |
| 20. Survey Response Rate: | 68% |
| 21. Survey - Shared Decision Making for Surgical Option: | 95.3% |
| 22. Survey - Cosmetic Results Following Breast Reconstruction: | 99.6% |
| 23a. Breast Conservation Therapy - Overall Rate: | 56.6% |
| 23b. Breast Conservation Surgery Rate for Eligible Patients: | 78.5% |
| 24a. Chemotherapy Use - Rate for Stage II and III ER and PR Negative (actual): | 44.3% |
| 24b. Chemotherapy Use - Rate for Stage II and III ER and PR Negative (potential): | 66.6% |

III. For Treatment and Comprehensive Breast Centers

- | | |
|--|-------|
| 25a. Post Lumpectomy Radiation - Rate for Invasive Breast Cancer (actual): | 72.6% |
| 25b. Post Lumpectomy Radiation - Rate for Invasive Breast Cancer (potential): | 84.4% |
| 26a. Adjuvant Endocrine Therapy - Rate for Invasive Breast Cancer (actual): | 23.6% |
| 26b. Adjuvant Endocrine Therapy - Rate for Invasive Breast Cancer (potential): | 56.1% |
| 27. Radiation Therapy - Break in Treatment: | 26.6% |
| 28. Reconstructive Breast Surgery - Myocutaneous Tissue Complication Rate: | 15.0% |
| 29. Adjuvant or Neoadjuvant Chemotherapy - Complications resulting in hosp: | 11.7% |
| 30. Ambulatory Breast Cancer Surgery - Unplanned Overnight Stay Rate: | 8.8% |
| 31. Breast Conservation Surgery - Re-Excision Rate: | 2.6% |
